About Me

I'm Chanuka Senevirathne, a passionate technologist with a keen interest in data analysis and visualisation. I enjoy transforming raw data into clear, meaningful insights using modern tools and techniques. With a growing foundation in AI, data engineering, and cloud architecture, I'm focused on building scalable, data-driven solutions that make an impact.

Skills

• Programming languages

Java, R, Python, C++, MERN Stack, C, Rust, TypeScript, NoSQL

• Data Analytics tools

PowerBI, Tableau, Apache Hadoop

• Cloud Tools

Azure, AWS,

Efficient knowledge for the Docker, Kubernetes, Data Warehousing, ETL Process, Data Pipelines, SQL

Education

Bachelor Hons Information Technology Specializing Data Science

2023 - Present

Sri Lanka Institute of Information Technology

The Data Science program at SLIIT equips students with a strong foundation in statistics, programming, and data analytics. It focuses on real-world problem-solving through machine learning, data visualization, and big data technologies. Students gain hands-on experience using tools like Python, R, SQL, and Power BI, while also exploring AI, cloud computing, and data-driven decision making in both academic and industry settings.

Diploma In. Business English

2022-2023

A practical program focused on enhancing professional communication skills in business contexts. Covers business writing, presentations, formal emails, negotiation, and workplace communication. Emphasizes fluency, clarity, and confidence in English for professional environments.

Experience

Content Writer In Wordpress

2019 - 2020

Blog And Article Writer In Fiverr

Certifications

Fundamentals Of Azure Cloud Computing

Data Manipulation In SQL

Understanding Power BI

Certification in Python

Understanding Artificial Intelligence

Expertise in pandas Numpy

Certifications In Data Security

Extra Curriculum Activities

Member of LEO Club in SLIIT

Volunteer In IEEE in SLIIT

Member of Data Science Student Community In SLIIT

Volunteer in Technology Community In Rahula Collage

Perfect Communications Skills

Problem Solving thinking
